

ISE 331 - Fundamentals of Computer Security
Homework Assignment 05

Assigned: Tuesday, 04/14/2026

Due: Tuesday, 04/28/2026, by 11:59 PM

Points: 30 points (5 points per question)

Please complete and turn in responses to the following questions from the textbook:

Chapter 10, Essay Questions: 1

10.1. Compare and contrast routers and switches by describing the advantages and disadvantages of each.

Chapter 11, Essay Questions: 1, 2

11.1. A co-worker with a strong Windows background is having difficulty understanding Linux file permissions. Describe Linux file permissions to him. Compare Linux file permissions to Windows file permissions.

11.2. How are authentication and authorization alike and how are they different. What is the relationship, if any, between the two?

Chapter 13, Essay Questions: 1

13.1. Discuss the differences between an anomaly-based and a misuse-based detection model. Which would you use to protect a corporate network of 10,000 users? Why would you choose that model?

Chapter 15, Essay Questions: 1, 2

15.1. Compare and contrast port scanning and ping sweeps.

15.2. What is the best practice to employ to mitigate malware effects on a machine?

You are encouraged to also complete the "Key Terms Quiz" and the "Multiple Choice Quiz" for chapters 10, 11, 13, and 15, but you are not required to turn those in.

I have posted copies of the End of Chapter exercises from the textbook for chapters 10, 11, 13 and 15 along with this assignment.

Submission instructions:

1. Please write your completed assignment in a word processor or text editor.
 - No scans of handwritten prose will be accepted.
 - Scans of hand-drawn diagrams are acceptable.
2. Please submit your completed assignment through Blackboard in PDF format.
3. Please name your file ise331_hw5_LastnameFirstname.pdf
3. At the top of your submission, please include the following:
 - Name
 - SBU ID Number
 - SBU netid
 - Date
 - ISE 331, HW 5
4. Exam questions will be based on the homework assignments. Taking the homework assignments seriously is a good way to prepare for the exams.
5. These are individual assignments. Any collaboration on answers will be considered a violation of academic honesty.
